AutoInspector Series - Ultra V - High Speed AOI

The **Ultra V** Series deploys the highest speed interfaces, computers and camera technologies to provide the fastest inspection times without compromising defect detection. The Ultra V is configured, as standard, for board handling of 20" x 20" (508mm x 508mm). The Ultra V XL, with board indexing, provides for board handling of 20" x 30" (508mm x 762mm). MVP's Flying Stage combined with Quad-Color Technology allows faster inspection cycle times while increasing inspection capabilities. Additionally, with enhanced defect coverage, false rejects are minimized. The Ultra V and Ultra V XL complement MVP's wide range of award winning AOI products and allow for the introduction of flexible solutions with the capability to increase performance and speed metrics at the same time.
